.A5

A.

Adams, Mass., Epidemic at, 61.
American Institute of Mining Engineers, 85.
American Gas Light Association, Proceedings, 8th Annual Meeting, 145, 197, 221, 245, 270.
American Society Civil Engineers, Election of Officers, 220.
Atmospheric Electricity and Gas Mains, 254.

B.

Brooklyn, Consolidation of Gas Companies, 13.
British Association of Gas Managers, 17th Annual Meeting, 27, 56.
Benzine, Petroleumand Coal, 35.
Boiler Explosion, 61.
Bars, Formation of, in Mississippi River, 108.

C.

Connecticut Gas Engineer's Association, Election of Officers—1880, 11.
Chemical Photometers, 13.
Cost of a Strike, 13.
Coal Tar Dyes, Manufacture of, 26.
Coal Trade of the World, 35.
Compression of Gaseous Mixtures, 37.
Coke Works, Largest in U. S., 37.
Carburetter, Fire from, 74.
Charleston, S. C., Gas Matters in, 99.
Coal Supply of, London, 107.
Consolidation in London, Result of, 122.
Coal Tar, Past, Present and Future of, by G. Williams, 124.
Cast Iron Pipes, Destruction of, 133.
Caloric Pumping Engine, 157.
Chesborough, E. S., Report on Newport Sewerage, 171.
Chimney Sweeps *vs.* Gas Cooking, 182.
Compressed Air as a Motor, 183.
Classification of Steels, 253.
Cheap Gas, 255.

CORRESPONDENCE—
- Atmospheric Electricity and Gas Mains, B. Silliman, 254.
- Anent the Stoppage Question, D. R. Shiras, 254.
- Correction, Mr. Jenkins on Gas Engines, 12.
- " " Humphreys, on Oil Gas, 12.
- Carbonic Oxide in Water Gas, 36, 60.
- Correction, by Mr. Pearson, 85.
- Coal and Oil Gas, F. Egner, 156.
- Electric Light 43 years ago, 12.
- Gas Holders and Lightning, 12.
- Gas Stoves, 12.
- Gas Furnaces, 108.
- Relative Thermal Power of Gas and Coal, R. Briggs, 146.
- Suffocation by Water Gas, 11, 12, 50.
- Something Astonishing, 254.
- The London Explosion, by Robert Briggs, C. E., 98.

D.

Drainage at Seaside Resorts, 103.
Deposit in Gas Well Tubing, 109.
Death of S. Watkins, 207.
Death of S. P. Parham, 243.
Deliberate Sfficide by the New Method, 244.

E.

Explosion of Gas Mains in London, 49, 80, 102.
Evans, F. J., Death of, 50.
Explosion in a Synagogue in Detroit, 74.
Exhibition of Gas Apparatus, Glasgow, 74.
Economy of Coal Gas, 8.
Electricity and Paraffine Competitors with Gas, 33.
Electric Light at Montreal, 37.
Exhauster, Location of, 54.
Electric Light, The Jamin, 56.
- " " The Brush, at Portsmouth, Eng., 56.
- " " Experiments with High Towers, 60.
- " " Co. Organized in Philadelphia, 61.
- " " Progress of, Abroad, 104.

Explosive Mixtures, by W. Foster, 105.
Explosion from Gas at Bilston, 107.
Explosion of Naphtha Lantern, 109.
Electric Light, Edisons, 146.
Electric Sun, 157.
Electric Light in London, 170.
Electric Light, Defects of Lamps, 170.
Extension of Gas Supply, T. Stone, 179.
Edison's Electric Light, Assessment of Stockholders, 230.
Electric Hammer, 231.
Electricity in Colleries, W. H. Preece, 252.
Electric Lighting of Royal Albert Docks, 255.
Electric Street Lighting in New York, 268.
Electric Street Lighting in London, 269.
Explosion at Municipal Company's Works, 280.

EDITORIALS—

F.

Fourth State of Matter, W. Crooke's, 33.
Furnace Heating, 51.
Furnaces, Retort, F. Livesey, 56.
Furnaces, Retort, G. E. Stevenson, 58.
Fink Roof Truss, Test of, 107.
Fog, Dry. 108.
Forests—How they Disappear, 157.
Furnaces, A. Weber, 251.
Food Adulteration, 253.

G.

Gas Engineering, 25.
Gas Coal, Eastern Market, 11.
Gas Engines for Hydraulic Work, 13.
Gas Escapes—Danger to Health, 34.
Gas Fitting, Control of, 51.
Gas and Gas Making, L. P. Gratacap, 78.
Gas from a Well at Ocean Spray, 84.
Gas Engines, Cost of Running, 123.
Gas Notes, 133, 156, 255.
Gas Bills in Cincinnati, O., 155.
Gas Burners, 156.
Gas Engines, G. G. Ramsdell, 245.
Gas Exhibition at Glasgow, 253.

H.

Hunt, Chas., Inaugural Address, 27.
Heats of Combustion, 244.

I.

Illumination by Coal Gas, 9.
Illuminating Power N. Y. Gas, 13, 36, 61, 85, 109, 133, 157, 183, 207, 231, 255, 280.
Iron, Effect of Use Upon, 108.
Iron Crisis, The Lesson of, 131.
Illuminating Gas of New York, E. G. Love, 147.
Improvements in Gas Machinery, 219.

J.

Johnson *vs.* Gas Light & Coke Co., 34.

L.

Lightning and Gas Holders, 12.
Luminous Paint in Japan, 61.
Leed's Gas Supply, 98.
Lime for Purification, N. H. Humphries, 181.
London Gas Light Co., 183.
Lamp for Miners, 183.
Leakage of Gas in London, 231.
Large Gas Burners and Railway Stations, 231.
Lowe Process, 269.
Lowe Process, Working of, at Toronto, W. H. Pearson, 273.

M.

Marking Ink for Linen, 11.
Motive Power, Relative Cost of, 36.
Metric System, 85.
Marking Tools, 109.
Mortars, Ancient and Modern, 182.

N.

New England Association Gas Engineers, 28, 97.
Nickel, New Use for, 26.
Naphthaline, 54.
Newport, R. I., Sewerage of, 171.
Nitrogen in Coal Gas, E. S. T. Kennedy, 178.

O.

Oil Fire, Titusville, Pa., 11.
Oil Fires, Cause and Prevention, 35.
Oil Monopoly, 55.
Oil Can, A New, 231.

P.

Preservation of Railroad Ties in Germany, 8.
Price of Gas Coals, 13, 37, 61, 133, 157, 183, 231.
Phosphorescence of the Glow Worm, 26.
Petroleum Outlook, 61, 123, 207.
Public Libraries, Lighting of, 101.
Photometer Improved by Toepler, 133.
President's Address, W. H. Price, 197.
Presentation to Mr. Baxter, Allegheny, N. Y., 255.

R.

Richmond, Va., Gas Works, Report of Supt., 9.
Retort Settings, 54.
Railroad Speed, 74.
Report of Messrs. Bazalgette & Keates on London Explosion, 102.
Railway Carriages, Lighting of, 178.
Reduction in price of Gas at Rochester, 183.

S.

Stoking, Mechanical, 50.
Suffocation by Water Gas, 11, 12, 133, 156, 230, 244, 253, 279.
Suffocation by Coal Gas, Antidote for, 26.
Sulphurous Acid, Removing from Furnace Gases, 56.
Science, a New Periodical, 26.
Sugg's Lighting and Ventilating Lamp, 101.
Sensibility of the Eye to Differences of Light, 104.
Sulphates Effect of on Lime Mortar, 130.
Slag Cement, 131.
Spent Lime, Chemistry of, 146, 150.
Spent Lime, Restoring of, Hislop's Process, 152.
St. John, N. B., Gas Company, 155.
Stoppages in Ascension Pipes, T. Forstall, 201.
Steam Stoking Inventions, A. Hickenlooper, 223.
Ship Railway, Capt. Eads', 231.
Sanitary Rules for Public Buildings, 253.
Safety Paper, 253.
